SUMMARY

With nearly 4 years of experience in the development & architecture of JS web applications, I worked with various teams as front-end developer using cutting-edge technologies to deliver reliable, fast, and scalable web apps to host thousands of users seamlessly.

My goal as a developer is to deliver well-structured and well-tested applications with acceptable maintainability and good documentation, security, and performance using the latest technologies and best practices.

SKILLS

Functional Programming, Javascript ES6, Typescript, HTML5, CSS3, React, Webpack, SSR, Next js, Redux, MUI, SASS, E2E Test, Testing Library, Cypress, Tailwind CSS, Clean code, Git, Linux, python, BS4, Data Structure, NPM

EXPERIENCE

Frontend Developer

Bitbine Company   **October 2020 - March 2022, Turkey**

- Built crypto currency exchange web app using react, redux, typescript and poly-fill provided by Babel.
- Implemented multi languages support & themes with i18n and material UI framework.
- Handled backend APIs by redux RTK-query utilizing serialization and memorization features for storing data.
- Built a package with github-packages to prevent duplication of reusable component in other projects.
- Implemented interactive animations for better user experience.
- Improvement in performance by 23% by configurating webpack.
- Developed and implemented front-end architecture to support user interface concepts with 100% accuracy.

Frontend Developer

Padidar Company   **April 2019 - September 2020, Iran**

- Designed and implemented a SPA's Web app.
- Developed and implemented front-end architecture to support user interface concepts with 100% accuracy.
- Utilized React context as a replacement for Redux and handled REST APIs using a custom hook.
- Used Middleware, Redux-Promise in application to retrieve data from Back-End and to also perform RESTful services.
- Implemented high order React components and stand-alone functions to be added to any future pages.
- Optimized Cross-Browser Compatibility and Responsiveness.
- Translated designs into high-quality code and wrote application interface code via JavaScript following React.js workflows.

October 2018 - July 2019, Iran

Frontend Developer

Freelance

- Designed and developed React SPAs for portfolio and shopping purposes.
- Developed websites using pure HTML, CSS, and JS.
- Developed web crawlers using python.
